EVERYBODY'S DOCTOR,

By ROBERT A. GUNN, M. D.

Everybody's Doctor contains 684 octavo pages
and is printed on fine paper handsomely bound.
It is sold at the low price of three (\$3) dollars
copy, so as to bring it within the reach of all.
The work differs from all other books on Do-
mestic Medicine in having the diseases system-
atically arranged, according to their classifi-
cation. Everything is described in the plainest
possible language, and the prescriptions are
written out in plain English, so that they can
be employed by any intelligent reader.

Druggists will find this book of great advan-
tage in aiding them to give advice when asked
to do so.

Dentists will find much information in it that
will prove valuable to themselves and their
patients.

Teachers will be better prepared for the per-
formance of their duties in the school room by
studying it.

Parents will find it a reliable adviser in
everything relating to the rearing of their
children.

Every family can save fifty times the price of
the book every year, by consulting it.

It is complete in all its parts, and is the most
recent book of the kind published.

The book will be sent free by mail or express
on receipt of three dollars.

TO THE CITIZENS OF RENO.

I HAVE BEEN A RESIDENT OF YOUR
town for three years, and outside of my own
business have not seen a decent pair of boots
that were made here. In order, therefore, to
extend to everyone facilities for obtaining re-
sults, I have opened a boot and shoe manuf-
actory in Reno, and I have sent to
the best of the country, and shall run
this as a first-class business. I will en-
gagement of my stock and facilities will
enable me to make boots and shoes, of the best
quality, to Reno's citizens, and all the people
generally desirous of obtaining the very
best of workmanship, to send me with their in-
structions. First-class material, such as
workmen and first-class work, at living rates.
is the motto of my coat of arms inscribed on
the banner floating from my castle walls.
Respectfully,
my18 H. F. FAVOLA.

LEGAL.

SHERIFF'S SALE.

IN SEVENTH JUDICIAL DISTRICT COURT
of the State of Nevada in and for Washoe
county, E. Dickinson plaintiff vs. C. A. Loomis
and A. J. Loomis defendants.

Under and by virtue of an order of sale and
decree of foreclosure issued out of the District
Court of the Seventh Judicial District, of the
State of Nevada held in and for Washoe
county on the fourteenth day of May, A. D.
1883, in the above entitled action wherein the
above named plaintiff, E. Dickinson, obtained
judgment and decree against C. A. Loomis and
A. J. Loomis, defendants, on the 11th day of
May, A. D. 1883, which said decree is recorded
in judgment Book 3, of said Court, at pages 83,
84, 85, I am commanded to sell all that cer-
tain piece, parcel or lots of land situated in the
Western Addition to the County of Washoe, State
of Nevada, to wit: That certain eastern
part of lots 9, in block C, fronting
Fifth street, and extending back on said lot one
hundred and forty feet and that dwelling house
situated erected and outhouses and improve-
ments, together with all and singular, the tenements,
hereditaments and appurtenances
thereunto in anywise belonging and appertain-
ing.

Public notice is hereby given that on Wed-
nesday, the sixth day of June, A. D. 1883, be-
tween the hours of nine in the morning and
seven in the afternoon, to-wit at twelve o'clock
noon of that day, in front of the Court House of
the county of Washoe, at Reno, Washoe county, State
of Nevada, I will, in accordance to said order of
sale and decree of foreclosure, sell the above-
described property or so much thereof as may be
necessary to satisfy plaintiff's judgment
with interest thereon and costs to the highest
and best bidder for gold coin of the United
States.
By W. H. McNEES, Deputy
Reno, Nev., May 14, 1883.

NOTICE TO CREDITORS.

IN THE 17TH JUDICIAL DISTRICT COURT,
of the county of Washoe, State of Nevada.
In the matter of J. C. Hagerman, an insolvent
debtor.

Notice to Creditors of Insolvent.

Pursuant to an order of the Hon. Wm. M.
Boardman, Judge of the said District Court,
notice is hereby given to all the creditors of
the said insolvent J. C. Hagerman, to be and
appear before the said Judge, in open Court at
the Court room of said Court, in the town of
Reno, in the said county of Washoe, on the
twenty-first day of June, A. D. 1883, at 10
A. M. of that day, then and there to show cause,
if any they can, why the prayer of said insol-
vent should not be granted, and an assignee
of his estate be made, and he be discharged
from his just debts and liabilities, in pursu-
ance of the Statute in such cases made and
provided, and in the meantime all proceedings
against said insolvent be stayed.

Witness my hand and the seal of
said Court, this 11th day of May, A.
D. 1883.
R. S. OSBURN, Clerk.
By W. L. KNOX, Deputy. my12

DELINQUENT NOTICE.

HIGHLAND DITCH AND WATER CO.
Principal place of business, Reno, Nev.
There are delinquent upon the following de-
bent stock, on account of assessment No. 17,
levied April 25, 1883, the several amounts set
opposite the name of the respective shareholders,
as follows:

Name	No. Cert.	Shrs.	Am't.
Malloy, Pat.	45	100	\$50 00
Malloy, Pat.	54	100	50 00
Thie, Pat.	120	50	25 00
Hymers, T. R.	87	100	50 00
Hymers, T. R.	80	100	50 00
Pine, J. N.	105	13	6 50
Pine, J. N.	107	20	10 00

In accordance with law, and an order of
the Board of Trustees made on the 25th day of
April, 1883, so many shares of said stock, or
each parcel of said stock, as may be necessary
will be sold at public auction at the office of
the Secretary, Chambers' building, Virginia
street, Reno, Nevada, on Monday, June 25th,
1883, at 12 o'clock noon of said day, to pay said
delinquent assessment, together with costs of
advertising, and expenses of sale.

By order of the Board of Trustees.
PIERCE EVANS.

Reno, May 26th, 1883.

ANNUAL MEETING.

THE ANNUAL MEETING OF THE STOCK-
holders of the Hopkins Gold and Silver
Mining Co. will be held at the office of the Co. at
the Court House, Reno, at 2 P. M. June 11th,
1883, for the election of a Board of Trustees for
the ensuing year, and for the transaction of
such other business as may come before the
meeting.

A special meeting of the present Board of
Trustees is hereby called for the same time
and place.

By order of the Board of Trustees.
M. O. LAKE, President.
Reno, May 11, 1883.

ANNUAL MEETING.

THE RIGHT COURSE.

The Austin Democrat thinks the papers all over the State have at last awoke to the necessity of properly placing before the public the great advantages which Nevada possesses for immigration, and are despatching upon the many resources which are to be found here. In certain parts of the Union—say, even in our own State—there are people who imagine that this is a barren, waste desert and that there is no future whatever before us. So far from such being the actual fact, Nevada's prospects were never brighter. Not only in mining, but also in agriculture and stock raising, our State is as good as any for those who are seeking homes in the far West. The great misfortune has been that, for some reason or other, the press have taken no pains whatever to allow these advantages to become known to the general public, and, as a natural consequence, our resources have not been brought to the light of day. But time, which remedies all defect, has proven the cure for this apparent apathy and the chances are now that our light will no longer be hid under a bushel. It is the duty of the journalists to depict things in their proper light, and it is a fair assumption that such is being done by those newspapers which are endeavoring to attract the attention of immigrants. We are satisfied that there is a great future in store for us, although it will require time, labor, capital and patience to accomplish this end. The great increase of population which our country is destined to see before many years are past, will need all the room that can be made available for living purposes. The greatest need of Nevada is water for irrigating purposes, but artesian wells will be constructed, either by private enterprises or by government subsidies as soon as the necessity becomes pressing. In the meantime, the mining industry is looking up well and a thorough prospecting of the State will soon be the result. The press is the proper source through which all the advantages that Nevada possesses will soon be known, and we are pleased to see that they have taken the work in hand in good earnest.

The New York World quotes from the Sun the heartfelt wish that the reformer and statesman of Graystone were still fresh and vigorous enough to lead once more the array of the Democracy, and adds: Tilden will never be nominated. He is a splendid reminiscence. His history is in the past, and his future is in the past. But how would a younger Tilden No. 2, do? Charles A. Dana, for instance.

President Arthur sent the following message to Senator Anthony, whose illness for so long a time threatened to terminate fatally: "I am sincerely gratified to hear through Mr. Hazard of your improvement, and I am encouraged to hope that you will soon be quite well again. You have been constantly in my mind and I send you my best wishes."

For more than four months the Illinois legislature has been in session, most of the time apparently engaged in earnest work; but so far has sent only eleven bills to the Governor for signature. Unless the law-makers redeem themselves on the home stretch they will require more than four months to make a satisfactory explanation to their constituents.

The New York Sun believes babies are now living who will see ten million people living on Manhattan Island and in support of its belief it states that the population is now 64 times as great as it was at the beginning of the century.

There were 600,000 head of sheep in Montana last year and the wool clip amounted to 3,000,000 pounds. Over 20,000 head of improved breeds of cattle had been imported this year.

Ben Butler has the satisfaction of knowing that he is not the first upon whom Harvard has refused to confer the L. L. D. degree. Increase Sumner failed to receive it in 1797.

The estimated decrease of the public debt for May is about \$3,500,000; bond redemption during the month \$10,000,000; payments on account of pensions, \$12,000,000.

The Civil Service Commission has commenced its work at New York. A good place to start in.

The Ohio Republicans will meet in State Convention on Tuesday.

The New York police are still raiding the opium joints.

France had better make the alliance a quadruple one.

Knights Templar Program.

The following cognomina have been adopted for the occasion of the reception of the Grand Master at the Mechanics' Pavilion, San Francisco, at 2 p. m. on August 20th, upon the arrival of the Grand Encampment of the United States: Music by the Hawaiian Band; prayer by the R. E. Grand Prelate of the Grand Commandery of California, Sir O. C. Wheeler; Templars' Ode by the choir; introduction by Eminent Grand Chapter-Grand Sir Rueben Hedley Lloyd of the R. E. Grand Commander, of California, Sir George Cadwalader Perkins, who will deliver the address of welcome to the most Eminent Grand Master, officers and members of the Grand Encampment of the United States; music; address by Governor George Stoneman; address of welcome by Washington Bartlett, Mayor of San Francisco; music; address in response by the M. E. Grand Master of the Grand Encampment of the United States, Sir Benjamin Dean of Massachusetts; music, during which all the banners will be assembled in front of the stage; ode, "America," the audience to join; benediction by the M. E. Prelate, Rev. Sir Clinton Locke, of Chicago. This programme received the approval of the Committee.

Pacific Mail Directors.

The annual meeting of the Pacific Mail Steamship Company was held in New York Wednesday. President Houston reported that the Act prohibiting the immigration of Chinese had caused a falling off of several hundred thousand dollars, but that the number carried to British Columbia made up for this loss. The war between Chili and Peru has been injurious to the company's interests, but work on the Panama canal has added to their freight receipts. The entire indebtedness of the company is now less than \$1,000,000, due to the Panama Railway Company, which is being liquidated at the rate of \$2,000 per month. The net earnings during the year were nearly five per cent. on the capital stock. The total earnings for the year were \$4,102,754; expenses, \$3,190,506. The following Directors were elected by votes representing 100,000 shares: Jay Gould, Sidney Dillon, Russell Sage, C. P. Huntington, E. H. Perkins, Jr., Henry Hart, William Remsen, Edward Lauterback and J. B. Houston. They will organize and elect officers in a day or two.

Not Probable.

A Washington special to the New York Commercial says: Inquiry of the Chinese Minister by a member of the diplomatic corps here, as to the working of the recent law passed by Congress prohibiting the importation of Chinese for ten years, elicited the reply that the Chinese Government had no complaint to make, but were entirely satisfied with the manner in which the law is being executed. The Chinese Minister said that before ten years come round he expected the United States Government would repeal the existing law and remove all barriers to the Chinese coming into the country, and this would be done because their labor would be needed. The first movement in this direction, he expected, would come from the States on the Pacific Coast. The people of California will find, before ten years pass, that the Chinese are needed, and will ask for a repeal of the existing law.

Grasshopper Item.

Considerable activity is beginning to be noticed in Sierra Valley grasshopper circles. The Leader says "the birth rate of these insects is assuming somewhat alarming proportions in a few localities upon the 'Island.' Last Fall the eggs were deposited in considerable quantities in certain favorable situations, and the past warm weather has succeeded in bringing out the latent power that is in them. The area covered by eggs is much less than in former years, and it is not probable that much injury will be inflicted to crops. It will be some time yet before they will be large enough to do any material damage and by that time it is hoped that crops will be out of harm's way. Still with the reputation which the little pests have for rapidity of increase and wanton destructiveness, the developments of the next few weeks will be anxiously looked for."

Climate Changes.

The Reflex, published at Ward, White Pine county, says: "This section has undergone a perceptible climatic change since 1877. The sweet breath of Summer has come later and later every year since then. Here it is the 26th of May and a fire still necessary for comfort, morning and evening, when it should be something like as hot as hades. The Ohio astronomer must have made a mistake when he made the statement that the people of the United States would soon be sweltering under a tropical sun. Instead, it looks like it will soon become necessary to don the garb of the Esquimaux, spear walrus and build snow huts."

The Business of the Country.

The exchanges last week were quite favorable, for gains appear in comparison with last year not only at New York, and not only in the aggregate outside of New York, but at several cities where there has recently been a decline in the volume of traffic. The decline at Boston, which has generally been large, is now insignificant. The losses at Pittsburgh and San Francisco are not large, and Milwaukee reports a smaller decrease than it did last week. On the other hand, the gains are not remarkably large at any of the chief cities except St. Louis, and the enormous gains at Kansas City and Lowell can hardly be regarded under the circumstances as evidence of a general change in the volume of business.

How two of the big cities of the United States have grown, is shown by the following figures: The population of New York City was in 1786—ninety-seven years ago—26,614; in 1820 it was 123,706; in 1830 202,580; in 1840, 312,710; in 1850, 515,547; in 1860, 813,669; in 1870, 942,392; in 1880, 1,206,290. This is a marvelously rapid growth and the indications are now unmistakable that before the close of the present century New York will have a population far exceeding that of any city on the globe, except London, but the growth of the greatness of the west is quite as marked and marvelous. In the year 1840, when the city of New York contained a population of 312,000, the "city" of Chicago had a population of 4,800. In 1880 New York had increased to upwards of 1,200,000, but Chicago, meanwhile, had increased its population to over half a million, a rate of increase far exceeding that of New York.

Railroad development in the West must from this time forward be rapid. With half a dozen outlets established and running through sections of territory widely separated and much diversified in soil and product, the lands adjacent will be sought for settlement, and lateral branches will spread out as thickly as they have done in the East. Business will grow and other trunk lines will come into early demand. With a railroad to carry him to his point of destination, the settler in the remotest part of the West will have no occasion to undergo the hardships of the earlier pioneers. Settlement and civilization follow the railroads, and even the savage surrenders his barbarism and seeks to become a peaceable citizen as soon as he hears the blast of the locomotive; waking the echoes across his reservation.

The railroad company has issued excursion tickets from San Francisco to Truckee, Truckee to Tahoe City, around the lake to Glenbrook, from the latter place to Carson and Reno, and thence to San Francisco, good till the 31st of October, for \$28. This is the most liberal offer ever made by the railroad company, and will doubtless be taken advantage of by a larger number of tourists than have ever visited the lake.

Gen. Geo. B. McClellan's friends are quite hopeful that he will become a prominent candidate for President before the next National Democratic Convention. The Democrats might, perhaps, do better, and certainly could do a great deal worse.

The Chicago Times has equipped a scout, who has started from El Paso via Corralitos, with the intention of ascertaining definitely Crook's whereabouts and operations since he entered Mexico. Chicago is determined to keep up with the times.

Not Quite Ten Years Old.

[Boston Herald.]

Not long since I took a train on the Bennington & Rutland Railway, leaving Rutland at 1 o'clock. In front of me sat a lady and boy. The conductor came along, punched her ticket, and asked: "How old is the boy?" "Ten years old today," said the lady, leaning half face from all children ten years old or more," said he. The lady hesitated, colored somewhat and said: "He will not be ten until about 11 o'clock to-night." The conductor colored also and passed, while the passengers smiled.

A Priest Prohibits the Decoration of Graves.

Milford, Mass., May 31st.—Contrary to expectation, Father Oudbury repeated this year his attempt to prevent the soldiers' graves in the Catholic cemetery from being decorated by the Grand Army Post. He ordered the command not to enter the cemetery, and caused the gate to be locked and posted a prohibitory notice. The Post, nevertheless, entered by a side gate and went through the usual ceremonies of decoration.

Osburn & Shoemaker have just received from the manufactory in the East a large lot of Royal St. John Sewing Machines, which they are selling at prices below what other sewing machines can be sold for, as they get them directly from the manufactory and pay no middle-men profits. These are fast becoming the leading machines. Call and see them.

THE ARTS AND SCIENCES.

The sum of \$5,000 has been offered by M. Paul to the French Academy of Medicine, to found a prize for the discovery of a cure for diphtheria, the competition to be open to the world, and not confined to the medical circle.

Don Nicolas Zuniga Miranda, of Mexico, has invented an apparatus that it is claimed will give notice several days in advance, of the coming of an earthquake. Its indications, Senor Zuniga affirms, are so accurate that it will mark not only the day, but even the exact hour, when the disturbance is to occur, and show what the degree of intensity of subterranean commotion will be.

Mr. Jameson, of Staffordshire, has been extracting ammonia and chemicals from the waste fiery pit heaps of collieries. He sinks pipes into the smoldering heapsthefts are connected with a small engine and a fan-blast, which work continually day and night. Several casks of the abstracted liquor have been obtained, and they are found to be rich in chemicals obtained from gas-works.

A New Archaeological Museum, to cost \$45,000 without the site, is to be built at Cambridge, Eng., and ready for opening by October. A considerable collection illustrative of local and general archaeology is already awaiting exhibition. A large number of casts, groups, relief-slabs and copies of other ancient works are to be provided from a fund, and it is hoped to secure also a library of classical archaeology.

The strength of iron in boilers is not much affected by working temperatures up to considerably over 400 degrees, nor by low temperatures down to the freezing point. But when the temperature of the plates through the absence of water or any other cause, rises much above 500 degrees, then a change commences. Above 750 degrees, the tenacity diminishes very rapidly, and when the plates become red-hot they have lost fully half of their usual strength.

WORDS OF WISDOM.

The mean man is sure to gloss his faults.

Nothing but a good life can fit men for a better one.

Those whose courses are different cannot lay plans for another.

True friendship between man and man is infinite and immortal.—Plato.

Occasions do not make a man frail, but they show what he is.—A Kempis.

A cheerful face is nearly as good for an invalid as healthy weather.—Franklin.

He that wrestles with us strengthens our nerves and sharpens our skill.—Burke.

It is said to be a sure indication of ruralty to see people put vinegar and sugar on lettuce.

The best education in the world is that got by struggling to get a living.—Wendell Phillips.

There are two roads that conduct to perfect virtue—to be true, and to do no evil to any creature.—Buddha.

Order is the sanity of the mind, the health of the body, the peace of the city, the security of the State.—Soutbey.

We sometimes meet an original gentleman, who, if manners had not existed, would have invented them.—Emerson.

Confidence is that feeling by which the mind embarks in great and honorable courses with a sure hope and trust in itself.—Cicero.

In life it is difficult to say who do you the most mischief—enemies with the worst intentions or friends with the best.

Consolation is the dropping of a gentle dew from Heaven on desert hearts beneath; it is one of the choicest gifts of Divine mercy.—Spurgeon.

The First Flag.

A New Orleans dispatch of May 29th conveys the following:

To-night the battalion of Washington Artillery celebrated their annual reunion, when the occasion was taken advantage of by General G. T. Beauregard to place in the keeping of the corps the battle-flag of the war. The trophy has an interesting history. It was the handiwork of Miss Hettie Carey, a Baltimore belle, who was a refugee in Richmond. She made it out of her own silk dresses, cut up for the purpose. She afterward married General Pegram of the Confederate army, who was killed in battle three days after the wedding. She is now a school teacher in Baltimore. The flag accompanied General Beauregard, who at the close of the war sent it to Havana for safety. A banquet followed. Regular toasts were drunk to the President of the United States, the Army and Navy of the United States, the Louisiana State National Guards and General G. T. Beauregard. The first toast was received with enthusiastic cheers and drunk standing.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-sw-1-yr.

He Meant Dynamite.

[Chicago Cheek.]

"You are the laziest man I ever saw," said Mrs. Jenkins to her husband, who was waiting for his noonday meal, which, as usual, was late. "Am I?" he murmured, carelessly. "Yes, you are, and you will stand more blowing up than anybody I ever heard of without resenting it." "Will I?" "Yes, you will. Ain't there anything that will move you?" "Yes, dinner might."

Then he exploded in a laugh of derisive scorn, and his wife went out into the kitchen wondering why she ever married.

Various Quacks.

Who, Each for His Own Pet Scheme, Cultivate the Field of Human Nature.

There have always been quacks—legal quacks, theological, scientific quacks and medical quacks. Some of them are bland, oily fellows who argue and smile the world into believing in their favorite bit of humbug. Others are pompous and pretentious parasites. But they make it pay. Men seem to love to be swindled, stipulating only that it shall be neatly done.

The dear public are equally liberal to the electric and magnetic fraud. This fellow is a genius in his line. He will put a magnetic belt around your waist, a magnetic necktie around your chin, or fit you out with an entire suit of magnetic clothes, warranted to serve the purpose of ordinary garments, and at the same time to cure all diseases, from whooping-cough to hasty consumption.

Most of these have no more electric or magnetic power about them than resides in woolen blankets or in girdles of sackcloth. Only when applied by an expert is electricity of the slightest use as a medicinal agent, and even then its value is grossly over-stated. What is the strongest possible presumptive evidence in favor of a particular remedy? Clearly that it should have been prepared by responsible persons of acknowledged skill in the treatment of disease.

Squarrel on this foundation stands BENSON'S CAPSINE POROUS PLASTER. Endorsed by 5,000 physicians, pharmacists, druggists and chemists, it needs no further apology nor introduction. It is the one and only true and tried external application. Quacks of all kinds pay the Capsine the compliment of their dislike, as Satan is said to hate holy water. Look in the middle of the plaster for the word "CAPSINE." Price 25 cents.

Seabury & Johnson, Chemists, New York.
